## INTRODUCTION

The Ohio Education Association is committed to a true partnership among federal, state and local governments in the delivery of public educational services in this nation. The Association seeks provision of financial resources to assure maintenance and operation of Ohio's schools, to provide equal educational opportunity for all students, to provide a safe and secure environment conducive for all students to learn, and to enhance the level of excellence in public education.

The Association is deeply committed to the success of every student. Our mission is clear: OEA will lead the way for continuous improvement of public education while advocating for members and the learners they serve. The advocacy of the Association is driven by our core values:

Democracy: The foundation of a strong democracy is high quality public education, which is essential for an educated citizenry.

Collective Action: When we unite as one voice, we are strong advocates for learners and our profession.

Fairness: A high quality education, accessible to all, promotes a fair and just society.

Inclusion: We respect and embrace the diversity of all communities.

Integrity: By holding ourselves to the highest standards, we promote good citizenship and maintain the public trust.

Professionalism: Professional judgement and expertise of educators are critical to student success. Educators deserve the status, compensation and respect due all professionals.

The OEA supports legislation consistent with these principles and opposes legislation detrimental to its interests. Because the Association recognizes that change is often effected incrementally in a democracy and that immediate passage of the Association's full legislative agenda is not always feasible, individuals lobbying on behalf of the OEA are directed to advocate and support those bills introduced in the state legislature that move toward the implementation of the Association's legislative agenda.

The Legislative Policies for Achieving Excellence in Education have been grouped in the following manner:

Section 1: *Ensuring the foundation of a high quality system of public education*

Section 2: *Supporting student success in and out of the classroom*

Section 3: *Protecting the voice and wellbeing of education professionals*

Section 4: *Advocating for good public policy*

On federal issues, the Ohio Education Association supports the Legislative Program of the National Education Association as adopted annually by the NEA Representative Assembly.

52 **Section 1: Ensuring the foundation of a high quality system of public education**

53  
54 **A. *An equitable and adequate system of education funding***

55  
56 *OEA Supports:*

- 57 • a school funding system that includes a sound method for calculating the base cost of an
- 58 adequate education for all children and a distribution formula that is fair to all school
- 59 districts. The school funding system must cover the costs, including state and federal
- 60 mandates, associated with educating all categories of students and ensuring that all
- 61 students attend school in safe, healthy environments and in facilities that are
- 62 structurally sound and technologically ready. Ohio has a constitutional responsibility to
- 63 fund a thorough and efficient system of public education;
- 64 • the creation of a state commission to monitor school funding in Ohio and ensure that
- 65 adequate resources are in place to support high-quality teaching and learning;
- 66 • the development of an objective method for determining an adequate formula amount
- 67 that is tied to the actual costs of students’ instructional needs;
- 68 • a formula that decreases the reliance on local property taxes while providing
- 69 opportunity for inflationary growth in local school district revenues;
- 70 • the enactment of a separate education budget enacted prior to the remainder of the
- 71 state budget;
- 72 • a school funding system that will distribute state funds with fairness and equity for all
- 73 districts and students, allowing for self-determination through local control and
- 74 ensuring that local districts retain the ability to supplement the state educational
- 75 program without losing state aid;
- 76 • a system that provides replacement revenues to school districts due to major changes in
- 77 the state tax law such as the loss of tangible personal property tax revenues;
- 78 • adequate funding to the Ohio Department of Education to effectively develop,
- 79 implement and evaluate legislatively-mandated education policies;
- 80 • providing adequate state funding for County Boards of Developmental Disabilities, joint
- 81 vocational schools, Educational Service Centers and Ohio’s Schools for the Deaf and
- 82 Blind;
- 83 • dedicated state funding for all school districts to employ an adequate number of school
- 84 counselors, nurses, psychologists and social workers;
- 85 • the creation of elementary specialists as a new category for elementary art, music,
- 86 physical education, and technology teachers;
- 87 • additional state funding to meet the requirements by each school district for excess
- 88 program costs;
- 89 • the principle that all school audits should be paid for by the state;
- 90 • promoting gender equity in the use of state funds for public schools;
- 91 • necessary state funding to cover all net costs of the College Credit Plus program to
- 92 ensure equitable access for eligible secondary students.

93  
94 *OEA Opposes:*

- 95 • basing school funding on test scores or report card data;
- 96 • the use of taxpayer money for private school vouchers and tuition tax credits.

ii. Charter Schools (known in Ohio law as “community schools”)

*OEA Supports:*

- accountability measures that accelerate the process for closing failing charter schools;
- fiscal accountability measures that require any public moneys returned to the state by a charter school, as a result of an audit by the Auditor of State, the Ohio Department of Education, or any other authorized agency, to be distributed back to school districts;
- verification of charter school per-pupil funding claims/enrollment counts by allowing ODE to know the identity of the student associated with each Statewide Student Identifier (SSID) number in the Education Management Information System;
- ensuring that charter schools, including governing boards, sponsors and operators, are subject to the same public records laws and financial transparency standards as any other public entity;
- a system of funding charter schools in a way that doesn't penalize traditional public schools, e.g. direct state funding instead of "pass through" funding;
- requiring charter schools to meet the following criteria:
  - have open admission policies;
  - be tuition-free;
  - be nonsectarian in their programs, admission policies, affiliations, employment practices, and all other operations;
  - be fiscally accountable and subject to the same federal and state audit requirements as other public elementary and secondary schools in the state;
  - have clear objectives, missions, and goals for which they are periodically assessed and held accountable to the public;
  - directly involve school employees in their program design, implementation, and governance;
  - meet the needs of at-risk students and those requiring special education services;
  - have adequate start-up resources and funding mechanisms that do not harm traditional public school districts or schools within districts;

- 148 – meet equivalent safety and health standards as required for existing public  
149 schools;
- 150 – comply with all federal, state, and local laws and policies regarding due  
151 process, nondiscrimination, and equal educational opportunity;

153 evaluation and “highly qualified” statutes/regulations as teachers in  
154 traditional public schools;

156 staff;
- 157 – ensure the same or equivalent collective bargaining rights provided other  
158 public school employees under state law;
- 159 – comply with the regular, periodic assessment and evaluation of student  
160 academic achievement, including state mandated assessments; and
- 161 – use the transportation system of the public school district in which they are  
162 located, unless the district agrees otherwise in conjunction with any  
163 impacted employee unions;
- 164 • providing high-quality educational services to all preschool, elementary and  
165 secondary school children in Ohio;
  - 166 • restricting public funding for a non-public school or charter school to a level  
167 that does not exceed corresponding funding for those services to the residing  
168 school district;
  - 169 • requiring all non-public schools and charter schools receiving assistance from  
170 public funds to meet the same accountability and transparency standards as  
171 school districts;
  - 172 • retention of ownership by the public of all educational materials, equipment  
173 and facilities that are purchased with public funds by a non-public school or  
174 charter school;
  - 175 • requiring any non-public school that receives assistance from public funds to be  
176 fully audited by the Auditor of State's office on the same basis as public school  
177 districts and charter schools;
  - 178 • requiring that any non-public school or charter school receiving assistance from  
179 public funds to have a fully open admission policy that only utilizes the legal  
180 authorities for non-admittance, suspension and expulsion of students as is  
181 allowable under law for school districts;
  - 182 • removing the Big 8 urban school districts from the permanent definition of  
183 “challenged” school district, which permanently authorizes new “start-up”  
184 charter schools in these districts regardless of their academic ranking;
  - 185 • requiring the Ohio Department of Education and Auditor of State to conduct on-  
186 site evaluations/audits for all charter schools at least every three years to  
187 confirm that sponsors and operators are in compliance with all required  
188 assurances/charter terms and state accountability and transparency laws, with a  
189 follow-up report highlighting any deficiencies and recommendations for  
190 improving or closing the school;
  - 191 • requiring that a majority of the schools associated with a sponsor or operator  
192 must be performing at a level of “C” or better before they are authorized to  
193 sponsor or operate additional schools;
  - 194 • formation of a work group with representatives from all public education  
195 stakeholder groups for the purpose of conducting a comprehensive analysis of

201 Department of Education in its the annual report on charter schools;  
202 • high-quality academic and financial reporting requirements for charter school  
203 governing boards, sponsors and operators, with enforcement mechanisms for  
204 failure to comply;  
205 • enforcement mechanisms that hold charter schools accountable when they fail  
206 to test students as required by law;  
207 • requiring that any unreported report card data by a charter school be logged as  
208 a zero until the required data is provided;  
209 • enforcement mechanisms for charter schools that fail to timely provide a school  
210 district the academic data of a student transferring from a charter school to a  
211 district school;  
212 • the creation of conversion charter schools where educators are members of a  
213 bargaining unit and, thus, retain the salary, benefits and due process rights of  
214 educators in the sponsoring school district;  
215 • limiting sponsorship of charter schools to democratically elected local school  
216 boards;  
217 • legislation to require an independent objective analysis prior to the  
218 authorization of a charter school to determine the impact of the charter on local  
219 public school resources, programs, and services, to be paid for by the entity that  
220 wishes to open the charter school;  
221 • spending limits on charter school advertising based on a set percentage of  
222 public funds received by a charter school, with annual public reporting of such  
223 expenditures.

224  
225 *OEA Opposes:*

- 226 • providing state or local funding assistance to private corporations and/or  
227 individuals for the establishment and operation of charter schools for profit;  
228 • exempting "drop-out prevention" charter schools from the charter school  
229 closure law;

231 ranked charter school building, while allowing for reasonable exceptions;

233 suitable for classroom space that is offered for sale;  
234 • fully virtual or online charter schools unless necessary to meet unique needs of  
235 students;  
236 • lower accountability standards for "drop-out prevention and recovery" charter
